Schedule

Saturday, July 12th

7:30 - 8:30am     CME Registration
8:30 - 9:00am     Welcoming Remarks
9:00 - 10:00am    Overview of POTS
10:00 - 12:00pm   Morning Roundtable Sessions on POTS
12:00 - 2:00pm    Lunch & Vendor Fair
2:00 - 3:00pm     Overview of Multiple System Atrophy & Pure Autonomic Failure
3:00 - 4:00pm     Afternoon Roundtable Sessions on MSA/PAF
4:00 - 5:00pm     Q&A Panel & Dismissal
7:00 - 11:00pm    Awards Banquet*

Sunday, July 13th

9:00am - 5:00pm   Non-CME Programming on Autonomic Disorders:
                 Research Update: Autoimmunity in POTS
                 Management of GI Issues in POTS
                 Physical Therapy for POTS
                 Sleep Disorders in Dysautonomia
                 Reflex Sympathetic Dystrophy
                 Ehlers-Danlos Syndrome & POTS
                 Dysautonomia in Autoimmune Diseases
                 Mast Cell Disorders & POTS
                 Management of Chronic Pain in POTS

This CME will be held on July 12th as part of the 2014 Dysautonomia International Conference, taking place July 11th-14th at the same location.
Purpose

The purpose of this workshop is to educate community physicians about Autonomic Disorders, proper treatment plans, and when to refer patients to tertiary care centers. This workshop will review Postural Orthostatic Tachycardia Syndrome (POTS), Neurogenic Orthostatic Hypotension, Pure Autonomic Failure, Multiple System Atrophy (MSA), and autonomic neuropathies secondary to autoimmune disease and diabetes. Collectively, these Autonomic Disorders impact millions of Americans. Because most physicians are not familiar with Autonomic Disorders, patients are often referred to multiple specialists to address individual symptoms with no one doctor evaluating the patient in the entirety. It isn’t unusual for patients with Autonomic Disorders to be referred to 10 physicians or more prior to receiving an accurate diagnosis. Physicians will learn to recognize the symptoms of Autonomic Disorders and the effects they cause throughout the body. They will learn to look at the patient in an integrated manner so as to connect the dots of symptoms affecting multiple organs.

Learning Objectives

- Recognize symptoms indicative of an autonomic disorder
- Describe the role of autonomic testing in diagnosis and treatment
- Distinguish structural and functional autonomic disorders
- Develop basic non-pharmacologic and pharmacologic management strategies

Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the Medical College of Wisconsin and Dysautonomia International. The Medical College of Wisconsin is accredited by the ACCME to provide continuing medical education for physicians. The Medical College of Wisconsin designates this live activity for a maximum of 7.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity. The Medical College of Wisconsin designates this activity for up to 7.0 hours of participation for continuing education for allied health professionals.
